QR code information for rechargeable NIMH battery

I. General information:

1. The manufacturer's name, registered trade name or registered trademark, postal address with single contact point and web and email address:

Xinxiang Huabo Power Material Co., Ltd.
ADD：Industrial Area, Dakuai Town, Fengquan District, Xinxiang City, Henan Province, People's Republic of China
Postal Code: 453012
E-mail：595408552@qq.com
Web：http://www.xxhbdy.com

2. The place of manufacture: (Xinxiang City, Henan Province, P.R.China)

3. Product: NiMH recharge battery, AA, 1.2V, 300 mAh
4. The date of manufacture：Refer to the body of battery.
5. The mass of the battery at the time of manufacturing (in grams): 8.7±0.3 g
6. The hazardous substances present in the battery, other than mercury, cadmium or lead:
NONE, please refer to battery regulation report of 2023/1542.
7. Usable extinguishing agent:
Dry Powder，Carbon Dioxide (CO_2)
8. Critical raw materials present in the battery in a concentration of more than 0,1 % weight by weight: Nickel hydroxide，Nickel, Lanthanum nickel alloy，Cobalt Oxide，Lron，Potassium hydroxide，Lithium Hydroxide，Sodium hydroxide，Dihydrogen Oxide，Graphite，Polypropylene，Polyiny Chloride

II. EC Declaration of Conformity

We herewith declare,
That the above product complies with the appropriate basic safety and health requirements of the EC Directive based on its design and type, as brought into circulation by us.

Certificate	Report number	Testing lab	Year	Norm
Battery safety	WTX25D03052364B001	Waltek	2026	IEC 62133-1:2017
Battery regulation	HTT202504385CH	HTT	2026	EU 2023/1542

III. Information regarding the prevention and management of waste batteries

Batteries may contain hazardous substances. Improper disposal can harm the environment, human health, or safety.
Do not dispose of batteries with unsorted municipal waste- dispose of them separately.
End-users are legally obliged to return used batteries free of charge to a designated collection point or sales outlet. Dispose of used batteries according to local environmental regulations.
All batteries included can be safely removed by the end-user for disposal.

Do not dismantle, open or shred the batteries.
Do not expose batteries to heat or fire. Avoid storage in direct sunlight.
Do not mix collected batteries with other materials.
Protect battery terminals, and store collected batteries in a clean, dry and well-ventilated environment out of direct sunlight and away from extreme heat.
Do not short-circuit batteries. Do not store batteries haphazardly in a box or drawer where they may short-circuit each other or be short-circuited by other metal objects.
Do not dispose of batteries in fire except under conditions of approved and controlled incineration.
Do not subject batteries to mechanical shock.
Keep batteries clean and dry.
Do not expose batteries to water, including sea water.
Do not store batteries where condensation occurs.
Wipe the battery terminals with a clean dry cloth if they become dirty.
Dispose batteries responsibly and properly, keep batteries of different electrochemical systems separate from each other.
Keep batteries out of the reach of children.
Seek medical advice immediately if a battery has been swallowed.
In the event of a battery leaking, do not allow the liquid to come in contact with the skin or eyes. If contact has been made, wash the affected area with copious amounts of water and seek medical advice.
